

Abergavenny and Area Recycling/Reuse Directory – February 2023- updated version.

This directory has been collated by the Eco Church Group at Abergavenny Baptist Church (ABC) to encourage members and friends to use these alternatives and avoid our use of landfill as a destination for so much of our waste.

Sadly, our modern living creates many articles which either wear out, become faulty or redundant and eventually finding their way to landfill.

Often these products have been manufactured using valuable or scarce resources, which could be recycled or reused in other ways.

In addition to the regular collections of certain items for recycling by our local council, there are many other organisations and companies which are able to receive a vast range of goods.

The list is not exhaustive. Any suggestions would be appreciated, please email abcecogroup@yahoo.com. We will endeavour to update it as situations change.
